Fire can help people in many ways. But it can also be very harmful (有害的). Fire can make water hot and house warm, give light and cook food. But fire can burn things, too. It can make trees, houses, animals and other things catch fire (起火). If some people can't run away from fire, it can kill them. This happens in every country. Sometimes big fire can burn forests and **destroy** many tall buildings. Nobody knows clearly when people began to make fire, but there are many interesting stories about the first time a man or a woman started a fire. One story from Australia tells about a man starting a fire a long time ago. He went up to the sun and brought fire down. Today people know how to make a fire with matches (火柴). Children sometimes like to play with them. But matches can be very dangerous. The match can burn a piece of paper and then it can burn a house. A small fire can become a big fire. Fire kills many people every year. So you must be careful with fire.

Mr. Ma, a famous mental (精神的) doctor from Beijing once said at an important meeting, “Now many young students can have problems with their minds (思想). Some students become worried because they have to study very hard. Others have trouble getting on well with people around them, like their parents and classmates. Parents and teachers should care more about this problem.”

Then Mr. Ma gave some examples. A middle school student from Xi'an was doing badly in his lessons. He thought his teachers and friends often laughed at him, and he became so nervous and worried that one night he left his home without telling his parents. Another student, a 14-year-old schoolgirl from Shanghai, was very afraid of exams. While she was reading the exam paper, she couldn't think of anything to write.

A recent report says about 18% of the young students in Shanghai have mental problems. They often feel worried and very unhappy. But many of them won't go and ask for help. Some think they will look **stupid** if they go to see a doctor. Others won't talk about their secrets.

At the end of the meeting, Mr. Ma gave some good ideas to young people:

- ◆ Talk to your parents or teacher often.
  - ◆ Take part in group activities.

Last month some thieves stole a valuable teapot from a museum in Hong Kong. They took the teapot to America, but the American police found it. The museum sent Mr. Chan, a member of the museum staff, to collect the teapot. On the plane back to Hong Kong, he noticed two men. They were watching him closely. "Perhaps they're going to steal the teapot again. I must think of a plan," he thought.

Mr Chan's daughter, Amy, met him at Hong Kong afterwards. Mr Chan was carrying two boxes. He gave his daughter the pink box and said to her in a low voice, "Take this gift box home with great care. " He walked away with the brown one. The two men followed him.

Amy opened the box at home. She was expecting a pair of sports shoes, but she just found an old teapot. "This is not a very interesting gift, " said Amy, a bit disappointed. "That's all right. Let's make some tea in it, "said her mother. Then they found a note in the teapot. It said, " Dear Amy ,\_\_\_\_\_62\_\_\_\_ Love Dad."

We're going to search your home, one of them said.

When the thieves entered Mr. Chan's flat, it was dark and quiet. All of a sudden, the door closed and the lights went on. The police were waiting inside.

Amy and her mother came out of the bedroom with the teapot. "That teapot is very valuable, said Mr. Chan. "A long time ago it belonged to an emperor. He drank tea from it."
